

MADDOO'S PLEA MEETS RESPONSE

Liberty Bond Workers Speed Up Campaign and Endeavor to More Than Fill Quotas.

(International News Service.)
Washington, April 25.—With indications that liberty loan committees are straining their efforts for obtaining full quotas, Secretary McAdoo has exhorted every loan worker to fight just as hard for the oversubscription as the soldiers in France are fighting for the maximum of America's rights and world liberty. The latest official total announced by the treasury department was \$1,790,478,150, with virtually three districts reporting their quotas oversubscribed.

The St. Louis district, first to win official recognition in the race for 100 per cent, the Minneapolis district, awarded second place, and the Kansas City district, unofficially reported oversubscribed by the treasury, comprise the three to have attained full quotas. Kansas City is listed with 79 per cent. of its quota, but a late dispatch from the bank declares it has gone over its allotment of \$150,000,000, and it further stated that its campaign through-out the district will not stop until the last gong rings down the curtain on the loan drive.

Minneapolis is credited with 103 per cent, and St. Louis with 102 per cent. Chicago still holds fourth place with 67 per cent. Philadelphia has jumped to eighth place, indicating 55 per cent. of its quota. The New York district is in tenth place with active campaigning reported; its record is 49 per cent. Richmond has 43 per cent. of its quota, and Atlanta, while twelfth in the list, has reported 24 per cent.

Liberty day has been proclaimed a state holiday by twelve governors, and loan committees are forecasting growing enthusiasm in proportion to contributions. It is expected that the sales tomorrow will carry the loan total well over the \$2,000,000,000 mark. The loan directors have estimated that 10,000 communities have oversubscribed and are entitled to honor flags. Reports from six federal reserve districts show that 4,500 have been awarded. Chicago leads with 2,078, and Cleveland is second with 740 awards.

New York has cleared for action, and

SAVE YOUR HAIR! A SMALL BOTTLE STOPS DANDRUFF

Every bit of dandruff disappears and hair stops coming out.

Try this! Your hair appears glossy, abundant, wavy and beautiful.

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff—that awful scurf. There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast. A little Danderine tonight—now—any time—will surely save your hair.

Get a small bottle of Knowlton's Danderine from any drug store or toilet counter for a few cents, and after the first application your hair will take on that life, lustre and luxuriance which is so beautiful. It will become wavy and fluffy and have the appearance of abundance, an incomparable gloss and softness; but what will please you most will be after just a few weeks' use, when you will actually see a lot of fine, downy hair—new hair—growing all over the scalp. Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhilarating and life-producing properties cause the hair to grow long, strong and beautiful.—(Adv.)

the latest reports show a record increase of more than \$28,000,000. The state has subscribed more than \$390,000,000, and the city of New York proper has subscribed \$314,000,000. Utica, N. Y., and Bridgeport, Conn., are two large cities reporting full quotas today.

A survey of the district reports shows the entire country eager to answer Secretary McAdoo's appeal. The west, New England and the Pacific coast areas are throwing all their weight in the drive for maximum quotas and large individual subscriptions. The south is preparing for record sales on its Confederate Memorial day, which will be a dual contribution with liberty day, and the singular fall of rain in the Dallas district, after a long drought there, has encouraged many communities to adopt the slogan, "Buy bonds and get rain."

The loan directors report subscriptions are particularly encouraging from Wisconsin, where honor flags have been awarded to Milwaukee, Oshkosh and Racine. San Francisco reports total sales at \$137,308,900. The district is in sixth place with 65 per cent. The Boston district is making rapid progress in its goal for individual subscription records, having already obtained 267,598 bond purchasers. The district's total is \$144,054,300, which is 57 per cent. of its quota.

Newmarket, Tenn., of the Atlanta district, has reported \$100,000 in excess of its quota. Other towns in the district are planning big demonstrations for tomorrow, when the old Confederate gray uniforms will march beside the khaki.

GROCERY DEALERS CUT FOOD REGULATIONS

Inspector Abel Threatens to Cut Off Culprits' Supplies.

Some of the regulations issued by the United States food administration governing the sale of sugar and wheat flour are not being observed by a few of the local grocers, according to County Administrator J. W. Abel.

Mr. Abel has recently received several complaints that certain dealers have been selling as high as twenty-five pounds of sugar to a customer when the rules state that not over one pound should be sold to a customer at one time. Mr. Abel says that the regulations governing the sale of sugar are fully as important as those applying to flour and that the dealers must see to it that these are enforced.

Another thing which has been brought before the administrator is the persistence on the part of some of the hotel and restaurant managers to include hot biscuit on their menu on weekdays, especially in serving breakfast.

In addition to these Mr. Abel mentions that a few of the grocers are still using the pancake flour as a substitute. This should not be done, he says, the administrator says that this flour may be sold without any substitutes.

Mr. Abel states that all regulations must be strictly observed by the grocers. In case he finds that they are failing to carry out the program, he will notify the wholesale concerns to discontinue selling their supplies. He urges that all of those who have no copy of the rules, call upon him and he will furnish them with one.

TWO MEN KILLED IN BIRMINGHAM WRECK

Eight Others Injured When Ensley Trolley Car Runs Wild.

(Associated Press.)

Birmingham, Ala., April 25.—Two men were killed and six injured when an out-of-bound street car on the Owen-Ton-Ensley line of the Birmingham Railway, Light and Power company jumped the track after descending a long hill at a high rate of speed near Tuxedo Junction, and plunged into a ditch fifteen feet away.

The killed:

L. T. Walker, conductor.

T. A. Thomas, motorman.

Three white men and three negroes were injured, one of the negroes seriously.

The brakes on the car are thought to have failed to work. Descending the hill at a high rate of speed, the car left the track, when it struck a sharp curve, and went into the ditch.

COLORED DENTAL CLINIC OPENED

Announcement is made that the colored dental clinic serves at the Chattanooga free clinic in the basement of the city hall from 4 to 5 o'clock on Tuesday and Thursday afternoon.

HUNS BRING FRESH RESERVES INTO ACTION

Use Trained Shock Troops in Desperate Effort to Break Lines South of Somme.

(International News Service.)

Washington, April 25.—Germany's present effort on the whole front south of the Somme and on the Aisne, is the most pretentious since her initial assaults in Picardy, according to reports reaching here today. The enemy has brought into action fresh reserves and also is utilizing all of his trained shock troops in the attempt to straighten the battle line and isolate the British and French railway centers.

In the struggle to prevent this the American forces are understood to have been given a prominent part. Gen. Pershing's men hold the center with French units between them and the British-Italian forces on the right. Practically all of the American artillery forces in France which were not needed to hold the sectors already taken over by Gen. Pershing are engaged in the present battle. These include crack organizations of the regular branch and of the federalized national guard.

Officers here who are closely watching the situation said today that the announcement that the Germans now are using tanks is most significant. They point out that in the earlier fighting the enemy did not try to bring the "land forces" into action and that they have found it necessary to do so now indicated that the resistance of the entente forces has greatly stiffened. The weather conditions are reported here to be ideal for offensive operations and the belief is general that the present German attacks will be pressed with the utmost violence. But whether they will result in the long expected counter offensive from the great reserve army created by the supreme war council at Versailles for Gen. Foch, the allied commander-in-chief, is not known here. Up to the present the French commander seemingly has been well satisfied to allow the Germans to accept losses out of all proportion to territory gained while maintaining his forces practically intact. How long these tactics must prevail is, of course, known only to Gen. Foch, but there is a growing belief in many circles here that he may strike back at any time now delivering a series of flanking blows designed to cut off the Germans from their main supply bases.

The military experts agreed today that the present German drive presents a serious situation to the allied commanders. But there was the utmost confidence that no disaster was in sight. If willing to pay the price in men the Germans can gain territory, military experts pointed out. But they also insisted that such territory was abandoned was of no great strategic value.

COMING BACK HOME.

(International News Service.)

With the American Army in France, April 24.—(6 p.m.)—Fifty privates and noncommissioned officers, it was learned today, are on their way back to America to speak for the third liberty loan.

The men were selected from various units and various departments for their ability to speak and for their appearance. It was an unexpected honor for the winners, who were jubilant over their vacation and opportunity it offered.

Joy was spread through the entire American expeditionary forces today by the official announcement that all officers and enlisted men in France, regardless of whether they are engaged in combat or doing noncombatant work, are entitled to gold chevrons of six months' overseas service.

A majority already were sporting the gold V-shaped stripes on their sleeves under the original plan of issue, whereby only men at the front received the insignia. The American boys not at the front felt this to be a hardship, as it was through no fault of theirs that they had been assigned to duty in France away from the front. They were stationed at French or British ports or were doing clerical work instead of fighting.

The decision was reached following negotiations with officials of the war department at Washington and is extremely popular. Those who have served less than six months are to be awarded a blue chevron.

It is also announced that men in the tank corps will wear a special collar insignia, a miniature tank mounted over two salamanders' heads toward center and with a half wreath beneath.

Appreciates Loyalty Of His Voting Friends

"To the friends who voted for me in the primary I don't need to thank each and every one of them for their expression of confidence, as I know those who voted for me are my friends and it is good to know that one has a thousand personal friends in the county in which he lives. It is something any man should be justly proud, and I shall never forget or fail to appreciate the efforts of my friends in my behalf. And to Tom Selman, who was elected over me by such a handsome majority, I will say that he defeated me in one of the fairest and cleanest primaries I ever saw, and he, together with other nominees of the party, shall receive my enthusiastic support. I don't believe there is a man in Hamilton county who can defeat Mr. Selman, especially in the coming election in August."—John J. Lively.

COFFIN RESIGNS FROM U. S. AIRCRAFT BOARD

(International News Service.)
Washington, April 25.—Howard E. Coffin has formally tendered his resignation as a member of the aircraft board, it was learned today. The board was in session today and it is understood that John D. Ryan, who has been named a member of the aircraft production board, has taken full charge.

GULF STATES STEEL DECLARES DIVIDEND

(Associated Press.)
New York, April 25.—The Gulf States Steel company today declared a stock dividend of 25 per cent. subject to the approval of the capital issues committee.

THRILLING DUPLICATION OF TRENCH RAID AT WARNER PARK FRIDAY

Spectacular Feature Will Lack No Detail of Actual Fighting in France—Battleplane to Fly—Infantry Charges and Machine Guns Add to Realistic Program

Splintered trees, shell holes, machine gun volleys and shredded Huns will be a few of the graphic features of Friday's spectacular war melodrama at Warner park. With French and American officers working; the county workhouse crew digging, blasting and twisting barbed wire entanglements; with shattered fragments of wagons and even the tin beef cans thrown "over the top" to lend atmosphere, no detail is to be omitted.

The helm of the working forces, however, and county officials have co-operated to the limit. John Lovell and Mark Wilson, who comprise the liberty loan committee with this special work in hand, have labored tirelessly and neglected no detail.

MOBILE PAINTERS WANT WORK FOR GOVERNMENT
(Associated Press.)
Mobile, Ala., April 25.—Thomas E.

Carroll, of the wage adjusting department of the United States shipping board, is in the city today, having been summoned here by the painters' union of Mobile. The painters, who are organized in this city, according to a statement by them, want the work of painting on government vessels in shipyards in Mobile done by qualified painters.

Bank Clearings Show 44 Per Cent. Increase

The clearings of the Chattanooga banks for the week ending Thursday, April 25, show an increase of about 44 per cent. over the corresponding week last year. The following is the report in detail:

Clearings for week ending	
April 25.....	\$4,759,391.46
Corresponding week last year.....	3,288,959.08
Total increase.....	\$1,460,432.38

GERMAN CAVALRY ON DUTCH FRONTIER

Hostile Demonstration Reported in Advances From Rotterdam.

(International News Service.)
London, April 24.—German cavalry has made a military demonstration of a hostile nature along the Dutch frontier fronting Westphalia, according to information received today from Rotterdam. It is now declared that, while the German note to Holland was not exactly an ultimatum it was couched in strong terms and demanded an immediate answer.

The text has not yet been made public at The Hague, but it is generally supposed that Germany is demanding not only transportation on Dutch railways and canals but also supplies of various kinds. According to press reports the German minister has left The Hague for Berlin and the Dutch minister is on his way from Berlin to The Hague.

PAY CASH AND PAY LESS AT McCLURE'S

World Beater Clothes \$10 To \$25

We conscientiously aim to earn and deserve the young men's and men's trade by having the best styles, the most dependable fabrics, the finest possible tailoring, and values that it would be difficult, if not impossible, to duplicate.

But come and see. There are new clothes—new styles—new fabrics—new colors to suit all.

McCLURE'S NEW IDEA CLOTHING STORE

MOORE J. SMITH, Manager 815 MARKET STREET

"IT AIN'T the feller what throws his hat the highest when the band plays the 'Oh, Say Can You See' that's got the biggest bump of patriotism," says my friend the Janitor. And he's so near right it's liable to hurt you—or me.

We're mighty liable to think we've demonstrated the fact that we're true Americans, if we stand up when we hear "The Star-Spangled Banner"—and succeed in out-yelling our neighbor when the "boys" march through the streets. That's all fine. Splendid! But "cheers" don't buy bullets. "Cheers" don't help make soup for our boys when they are cold and tired. DOLLARS WILL. Now then suppose YOU sit down and let your pocketbook "cheer" for a while.

Stop to consider for a moment, the financing of this war. Every time a big gun is fired, the cost runs into thousands of dollars. Every soldier in France has got to be fed—and fed well, for as Napoleon said, "an army fights on its stomach. Our boys must eat.

Our country is not a poor nation—far from it—but the cost of winning this war is so colossal, the Government must borrow money. From whom should they borrow it but the people who have MADE IT UNDER THEIR PROTECTION.

So now, to come right down to the plain truth of it, YOU must finance this war. You—your neighbor—and his neighbor.

If you haven't bought Liberty Bonds to the very limit of your substance—if your heart doesn't tell you you've done all you can, "COME ACROSS." Invest your dollars in Democracy—in safety for your loved ones—and humanity.
